

About the Tournament

Local business owner, Kevin Hight, started the tournament in Summertown in 2018 in honor of his son, Max, and the thousands of other adults and children who live with rare brain conditions known as disorders of the corpus callosum (DCC).

People living with a DCC are missing some or all of the pathway structure -- the corpus callosum -- that connects the left and right halves of the brain. Those living with the conditions face challenges in many areas of their lives due to the absences of the important pathway in the brain.

THE NODCC

The National Organization for Disorders of the Corpus Callosum (NODCC) is a national nonprofit organization serving individuals and families. Since there is no cure for this condition, the NODCC works to educate, provide resources and support families in their daily lives.
